

Princess 5

Princess 6

## Princess Series

Step into a Princess 5 or 6 and you won't believe you are at an outdoor event. With a tasteful decor, porcelain flush toilets, urinals, running water, lights, counters & a/c you'll feel like you're in the washroom of an indoor event centre.

Our Princess series with a 5 or 6 station configuration will accommodate 300 to 400 guests at an all day event. These units are equipped with a 600 liter fresh water holding tank and over 2000 liters of waste capacity. A power source is required to run the pumps, lights & air conditioning.

Treat your guests to a princess experience at your next outdoor event.
